CA School Dashboard: Academic Performance - English Language Arts

This report shows the performance levels for the English Language Arts Academic Performance Indicator for all student groups in grades 3-8 and 11. It also shows the participation rate, number of students tested, DFS (status), and performance level (color) for three consecutive years of the CA Dashboard. Performance Levels (colors) have five possible values (Red, Orange, Yellow, Green, Blue). A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with less than 30 students and scores in the current and prior year, status is reported, but performance level (color) is not reported. Note: Charter Schools are treated as schools (not LEAs) when it comes to reporting Foster Youth and Homeless student groups. Charter schools will need at least 30 or more Foster Youth, or 30 or more Homeless youth, to receive a status level for each student group. The Every Student Succeeds Act requires districts and schools to test at least 95 percent of all students and student groups in English Language Arts and Mathematics. It also requires states to factor the participation rate into the Academic Indicator. For any local educational agency (LEA), school, or student group with less than 95 percent of students tested, the ESSA requires a penalty to be applied to the Academic Indicator. To meet this federal requirement, California assigns the Lowest Obtainable Scale Score (LOSS) to each student needed to bring the participation rate of the school, district, and/or student group to 95 percent. The LOSS assigned to each of these students who did not test will be used in calculating the Distance from Standard (DFS). When comparing school to state, only numerically significant student groups of 30 or more will be compared for accountability purposes.

CA School Dashboard: English Learner Progress Indicator (ELPI)

This report shows the percentage of current English learner (EL) students making progress towards English language proficiency at their school for all student groups in grades 1-12. The English Learner Progress Indicator (ELPI) relies on the results of the Summative English Language Proficiency Assessment (ELPAC), including Summative Alternate ELPAC results, to determine EL student progress. For the EL students taking the Summative ELPAC, those who increase an ELPI level or maintain ELPAC Level 4 are counted as making progress towards English language proficiency. ELPI Change measures the rate at which schools are improving their ability to move their EL students towards English language proficiency. It is the difference between the prior year Status and the current year Status. A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "—" means that data is not currently available. For student groups with less than 30 students and scores in the current and prior year, status is reported, but performance level (color) is not reported.

Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Districts and schools that do not meet the 95 percent participation rate on the Summative ELPAC and Summative Alternative ELPAC and have at least 30 EL students enrolled during the testing window (February 1 to May 31) will receive a modified ELPI rate on the California School Dashboard (Dashboard). For each district and school that does not meet the 95 percent target, the minimum number of students needed to reach a participation rate of at least 95 percent is determined. The resulting number of students will be counted as not making progress in the current ELPI Status calculation.

CA School Dashboard: Academic Performance - College / Career

This report shows the percentage of current graduates who meet specific College/Career Indicator (CCI) "prepared" criteria for all student groups in grades 9-12. For the 2023 Dashboard, the CCI will report the most current year data or "status only". Therefore the CCI will have performance displayed using one of five Status levels that range between Very Low (lowest performance), Low, Medium, High, and Very High (highest performance). A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. When comparing school to state, only numerically significant student groups of 30 or more will be compared for accountability purposes.

CA School Dashboard: Suspension Rate Indicator

This report shows the number of students who have been suspended at least once in the school year for all student groups in grades TK-12. A student is counted as suspended in the suspension rate only once regardless of multiple suspensions or multiple days of suspension. Please note that good performance on the Suspension Rate Indicator means having the lowest percentage of students suspended in the current year. A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with less than 30 students with scores in the current and prior year, status and change are reported, but no performance level (color) will be reported. When comparing school to state, only numerically significant student groups of 30 or more will be compared for accountability purposes.

CA School Dashboard: Graduation Rate Indicator

This report shows the combined four- and five-year graduation rate for comprehensive (or traditional) high schools and Dashboard Alternative School Status (DASS) schools for all student groups in grades 9-12. This rate is based on the number of high school students who graduate with a regular high school diploma in either four or five years. The 2024 Graduation Rate Indicator includes students from the most recent graduation cohort (Class of 2024) as well as students from the prior cohort (Class of 2023) who graduated in their fifth year of high school in 2022-24. A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with less than 30 students with scores in the current and prior year, status is reported, but no performance level (color) will be reported. Enrollment Report

This report displays CALPADS K-12 enrollment number and percentages of select student groups. Annual enrollment consists of the number of students primarily enrolled on Census Day (the first Wednesday in October). This information was submitted by local educational agencies (LEAs) and charter schools to the California Department of Education (CDE) as part of the annual Fall 1 data submission in the California Longitudinal Pupil Achievement Data System (CALPADS). These data were reviewed and certified in CALPADS as being accurate by authorized district or school personnel. In order to certify data in CALPADS, authorized district or charter school personnel are required to review the accuracy of all data associated with the applicable CALPADS submission. The CDE collects some data on GATE programs through the CALPADS; however, this information is submitted by LEAs on a voluntary basis and it wouldn't necessarily be accurate as per CDE.

Students with Disabilities Report

This report displays the K-12 enrollment and the number of K-12 students with disabilities total, by incidence category, and by eligibility as reported on the Census Day (First Wednesday in October) CALPADS Fall 1 Certified Student Profile List Report (Report 8.1) submitted by Local Education Agencies (LEAs). LEAs are required to “certify” specified data during submission windows. The CDE uses certified data for state and federal reporting and to develop accountability metrics. Once data are certified by an LEA following the close of the Amendment Window, they are “frozen” and cannot be amended. High Incidence is defined as students in the Other Health Impairment, Specific Learning Disability, and Speech or Language Impairment categories. Low Incidence Students are defined as those in the Autism, Deafness, Emotional Disturbance, Hard of Hearing, Intellectual Disability, Multiple Disabilities, Orthopedic Impairment, Traumatic Brain Injury, and Visual Impairment categories.
